

Sir James McCusker Park, Iluka - Landscape Upgrade 2019/20

Project Summary:

As part of ongoing upgrades in Iluka SAR the City and the Iluka Homeowners Association Inc (IHA) evaluated the services and associated costs in managing the Specified Area Rate (SAR) landscapes within the suburb to an agreed enhanced level and cost. The 2019-20 evaluation resulted in numerous projects approved including upgrading the landscapes in Sir James McCusker Park located near the amphitheatre and near the main car park off Silver Sands Drive.

The upgrades are consistent with the management approach undertaken within all the SAR estates which is to provide:

- Improved safety through increased visibility and clearance in parkland, footpaths and entrances
- Reduced potential fire risk due to deadwood and debris in garden beds
- Enhanced aesthetics of the estate
- Improved health of the existing native flora by removing inappropriate species
- Aid water retention, suppress weed growth and emphasise the existing native trees through the application of mulch.
